

# Integrated Software License Management Tools for Engineering Applications

## Siemens EDA / Mentor Graphics License Usage Reports

Siemens EDA (formerly Mentor Graphics) is a US-based electronic design automation multinational corporation for electrical engineering and electronics.

Tracking usage across the organization (location, team, etc.) is critical for optimizing license selection and expenditures. Optimize Siemens EDA (formerly Mentor Graphics) licenses that your team uses by taking a look at patterns of historical usage:

- Groups and Projects
- License Denials
- License Efficiency
- License Harvesting
- License Pool - Total number of Siemens EDA (formerly Mentor Graphics) licenses and Users
- Real-Time / Actual usage
- Checkout times - Times and frequency
