

# Who We Work With

## Engineering Licenses

TeamEDA's proprietary software monitors most leading engineering tools covering research, development and engineering solutions. Licenses we support include CAD, CAE, EDA, PLM, Simulation (including FEA, Multi-domain, CFD and Vibration), Math, MBSE and others.

## Floating License Vendors

Our License Asset Manager with Usage Monitoring (LAMUM) is compatible with all leading floating license manager types in the engineering industry, with others available on request. Key Floating License Types we work with include:

- + FlexLM
- + FlexNet
- + Reprise RLM
- + LUM (Catia)
- + DSLS (Catia)
- + Altium
- + LM-X (Altair)
- + Windchill
- + MathLM (Mathematica)
- + Atlassian
- + Altium Nexus / Vault
- + Codemeter
- + Zemax (Sentinel HASP / LDK)
